## INSTRUCTION TO AUTHORS

The Borno Medical Journal (BOMJ) welcomes any contribution that advances/illuminates medical science or practice extending to all aspects of medicine. Contributors are advised to follow the uniform requirements for manuscript submitted to biochemical journals. Articles may be in the form of original articles, review articles, case reports, clinic practice materials, letters to the editor, short communications, commentaries, viewpoints, and review of books, clinic-pathological conferences and medical education materials. The BOMJ also publishes articles on socioeconomic, political and legal matters related to medical practice; conference and workshop reports and medical news.

### Manuscripts

Manuscripts are reviewed for publication on the understanding that none of the material has been published previously and none is currently under consideration for publication elsewhere. Each of the following sections should begin on a new page, abstract, introduction, materials and methods, ethics, statistics, results, discussion, references, tables, legends to figure(s) and illustration(s).

Manuscripts should be submitted online via: [www.bornomedicaljournal.com](http://www.bornomedicaljournal.com)

### Title page

This should bear the title of the paper, names, initials and qualification of each author; the author to whom correspondence should be addressed, present address(es) of author(s) if different from that at which work was done; key words (not more than six words) : and running title. Use of abbreviations should be avoided in the title and abstract.

### Case reports, grand rounds and short communications.

These should not exceed 1500 word with no more than 10 references, 2 illustrations and tables. The number of authors should not exceed four for case reports and short communications.

### Letter to the Editor

Letters should contain a maximum of 1,000 words, 2 illustrations/tables and 10 references. The content may be clinic observations or other relevant matters related to medicine or comment on material published in BOMJ.

### Abstract

Abstract should not exceed 250 words. For original articles, it should be structured into background, objectives, methods, results and conclusions. For short communication and case reports, it should state the objectives, methods and main result and conclusion of the study.

For review articles, it should state the purpose, data source, study selection, data extraction, results and conclusions.

### Tables and Illustrations

Tables should be doubled – spaced and numbered consecutively within the text. Areas of insertion should be indicated. All illustrations are to be considered as figures and numbered consecutively with Arabic numerals.

Photographs should conceal the subject's identity or sent with written consent of the subject. If an illustration has been published previously, full credit to the original source must be given in the legend.

### Abbreviations and Nomenclature

Non – standard abbreviation contained in the manuscript (excluding references) should be listed in an alphabetical order with definitions after key words. Generic drug nomenclature is preferred to proprietary (trade) names.

### Acknowledgements

Acknowledgements of general support, grants, technical assistance, e.t.c should be indicated.

**Acknowledgement of receipt** For every article received, an automated acknowledgement would be sent to the corresponding author.
